EXPERIENCES

UX Designer

DemocracyLab

Sept. 2023. – July. 2024.

Vancouver, BC

- Take part in the implementation of a robust design system to align the brand and improve consistency.
- Collaborated and created page redesigns that aligned with the Design System.
- Enhanced documentation for efficient onboarding process to optimize the usage of Design System and collaboration.

Projects

Tester – Mentor

Empowered Futures

June, 2024. – Current

Vancouver, BC

- Conducting thorough testing of product features and user interfaces, providing detailed feedback to the development team to enhance product quality and user experience.
- Facilitating sessions for mentees, fostering a collaborative and supportive learning environment.

UX Designer

PollyPocket

March, 2024.

Vancouver, BC

- PollyPocket is a budgeting app designed to empower students and young adults in effectively managing their finances. Tailored for convenience and user-friendliness, it offers an enjoyable experience aimed at fostering financial understanding and control.
- This was an end-to-end conceptual project. I worked on PollyPocket financial platform as a solo designer. My areas of responsibility were: User research, Brand identity, UX/UI Design, Prototyping, and Usability Testing.
